PROFILE

Software developer in training with strong Java and DSA skills. Building creative solutions using generative AI and NLP, and committed to growing through hands-on problem solving.

EDUCATION

MLR Institute of Technology   2026
Bachelor of Technology   Hyderabad, India
CGPA:8.68 (as of July 2025)

Sri Chaitanya Junior College   2022
Board of Intermediate   Sangareddy, India
(MARKS:975/1000)

St.Anthon'ys High School   2020
Board of Secondary Education   Sangareddy, India
(CGPA:10.0/10.0)

PROJECTS

ARGUMENTED REALITY IN MEDICINE IMAGING

- Created an AR application aimed to improve accessibility and comprehension of medication information within the healthcare industry.
- Implemented real-time logo recognition of medicines to present detailed information and provide audio descriptions.
- Leveraged Unity to deliver a smooth AR experience, ensuring quick and accurate access to crucial information for enhanced patient care.

STORY2SCENE

- Story2Scene is a project that uses NLP and Generative AI to transform written stories into a series of connected scenes with visuals representations.
- It extracts key elements such as characters, settings, and emotions to generate corresponding images for each scene. The project also includes the ability to create a video with smooth transitions, providing a more immersive and cohesive storytelling experience.

SKILLS

Programming/ Developement
C,Java,Data Structures, HTML,CSS,Python

Soft Skills
Leadership, Multi-Tasking, Problem Solving

CERTIFICATES

- ServiceNow Certified System Administrator-July 2025
- Smart Coder Certification – Smart Interviews – 2025
- Completed NPTEL's certified course on Data Structures and Algorithms using Java

CODING PROFILES

- CodeChef: 400+ problems – Competitive programming
  https://www.codechef.com/users/mannechandana0 ⚲
- LeetCode: 50+ problems – Arrays, strings, recursion
  https://leetcode.com/u/chandanaa_3/ ⚲
- HackerRank: 30+ problems – Silver badge in Problem Solving
